

Y2 - prior to short column method

A handwritten addition problem on grid paper. The problem is $36 + 23$. The numbers are written in two columns. The first column has a green '3' and a green '2'. The second column has a blue '6' and a blue '3'. A plus sign is to the left. A horizontal line is drawn under the second column. Below the line, the number '9' is written in blue, with the text $(6 + 3)$ to its right. Below that, the number '50' is written in green, with the text $(30 + 20)$ to its right. Another horizontal line is drawn under '50'. Below that, the number '59' is written in grey. A yellow arrow points from the right towards the '9' in '59', with the word 'TOTAL' written inside the arrow.

A handwritten addition problem on grid paper using the short column method. The problem is $26 + 25$. The numbers are written in two columns. The first column has a red '2' and a red '2'. The second column has a blue '6' and a blue '5'. A plus sign is to the left. A horizontal line is drawn under the second column. Below the line, the number '11' is written in blue, with the text $(6 + 5)$ to its right. Below that, the number '40' is written in red, with the text $(20 + 20)$ to its right. Another horizontal line is drawn under '40'. Below that, the number '51' is written in black.

Y3 - prior to short written method

$$\begin{array}{r}
 125 \\
 + 243 \\
 \hline
 8 \quad (5 + 3) \\
 60 \quad (20 + 40) \\
 300 \quad (100 + 200) \\
 \hline
 368 \quad \leftarrow \text{TOTAL}
 \end{array}$$

	H	T	O				
	4	2	9				
+	2	6	5				
		1	4	(9 + 5)			
		8	0	(20 + 60)			
+	6	0	0	(400 + 200)			
	6	9	4				

Y4,5,6 to continue with this method if necessary
